

STORA ENSO ANJALA, FINLAND, 2008

Basic facts of the project

- Robowrap Twin, 1 operator
- Roll dimensions:
W = 3000 mm, D = 1500 mm, Wt max = 5.500 kg
- Capacity 200 rolls / h – 4000 rolls per day
- Taken into operation in December 2007
- One line handles the capacity of the entire Anjala Paper Mill – approx. 1 Million rolls and 500.000 tons per year

Special Features

- First installation of Saimatec's new flagship concept: **Robowrap Twin**
- Special attention has been paid to features that enable the line to run without interrupts for extended periods of time. All materials can be filled on-the-fly and regular service requires only minimal downtime.
- The new roll wrapping and roll handling system holds the **WORLD RECORD** for roll wrapping / handling capacity: **4000 rolls per day**.
- Delivery included a complete roll handling system from new and existing winders to warehouse, as well as various upgrades and tailorings of existing machinery and control systems.
